

KEY FIGURES ROAD OPERATION 2017

OUR CORE BUSINESS

- Full management of toll systems (manual, automatic and electronic): *toll collection, supervision, administration and control*
- Design and implementation of commercial policies, customer relationship management
- Traffic and safety management (*supervision 24h/day, patrols, incident response*)
- Routine and winter maintenance
- Tunnel operation
- Infrastructure and equipment maintenance
- Asset management (*planning and management of heavy repairs, renewal strategies, global solutions for lifecycle management*)

AND VIA OTHER EGIS SPECIALISED SUBSIDIARIES

- Project development (23 financial closings)
- Turnkey supply of toll and traffic management equipment
- Infrastructure engineering for roads, tunnels, structures and environmental issues
- From traffic management to mobility management, particularly in urban areas

Egis is an international group offering engineering, project structuring and operations services. In engineering and consulting its sectors of activity include transport, urban development, building, industry, water, environment and energy. In roads and airports its offer is enlarged to encompass project structuring, equity investment, turnkey systems delivery, operation and mobility services. Employing 13,800 people, including 8,400 in engineering, the Group generated a managed turnover of €1.020 billion in 2016.

OUR OFFER

- Operation and maintenance with long-term commitment on performance and price
- Structuring operation and maintenance within complex tenders such as PPPs
- Advisory and audit services, as well as a complete range of specialised solutions to optimise operation and maintenance

A world leader
in motorway and
toll operation

Reviving Infrastructures and Territories

OUR ADDED VALUE

- Experience of long-term partnerships in numerous countries
- Capacity to structure a comprehensive O&M offer and commit to it
- Capacity to expeditiously start up or take over an existing operation
- Deployment of innovative services optimising infrastructure management and sustainable development of territories

OUR STRONG POINTS

40 contracts and **27 operating subsidiaries**
covering a wide range of activities in different countries
dealing with various operation issues

Extensive expertise in tunnel operation
with **59 km** under operation and **82 km** under contract

A network of available experts

- both at the head office and in operating companies
- offering unique advisory and audit capabilities in operation and maintenance
- using expertise and know-how capitalised over 20 years
- having a wide range of computerised tools developed specifically for motorway operation
