MANAGEMENT OF ON-STREET PARKING

SMART PARKING FOR A SMART CITY
EGIS, A MAJOR PLAYER IN THE MANAGEMENT OF SMART PARKING

Egis supports communities in their digital and infrastructure transitions that improve traffic flows and the mobility of road users in urban areas.

We bring our know-how and our international experience to manage end-to-end parking service delivery or to provide solutions that integrate into existing models.

We act as both an international operator of on-street parking solutions and developer, designer, integrator and operator of digital solutions adapted to the needs of our customers.

We are present in more than 50 cities internationally, with references in major cities such as Paris, Nice and Amsterdam.

A GLOBAL OFFER ADAPTED TO THE CUSTOMERS’ NEEDS

Egis is active along the entire value chain of on-street parking services. From payment to enforcement and claims management, we adapt our solutions and services to the size of cities and their environment, adjusting to the challenges of our clients.

OUR GLOBAL EXPERTISE TO SERVE OUR CUSTOMERS

PAYMENT

IN IRELAND, EGIS OFFERS E-PAYMENT FOR ON-STREET AND OFF-STREET PARKING VIA THE EASYTRIP SMART APP.

The Smart App is available on tablets and mobiles via the Apple Store and Google Play and, offered for free to more than 80,000 customers.

In addition to geo-locating, paying and accessing their transaction details, the Easytrip App allows users to update their payment options, check their account balance, and modify their payment thresholds. Details per vehicle are available and can be emailed directly from the App.

DEPLOYMENT AND OPERATION OF PARKING METERS

Egis offers installation, operation and maintenance of parking meters

- Installation
- Operation
- Preventive and curative maintenance

€200M IN 2018

2400 PARKING METERS
Egis offers a flexible solution adapted to on-street parking services.

**PERSONAL DIGITAL ASSISTANCE (PDA), OUR ENFORCEMENT TOOL FOR ON-FOOT ENFORCEMENT OFFICERS**

Egis provides a tool for CEOs to enforce the parking usage of road users

- Verification of parking payment, including e-tickets in case of payment by mobile phone or using a parking meter
- Management of PCNs

+630 PDA DEPLOYED IN FRANCE

170,000 CARS CHECKED PER DAY IN PARIS AND AMSTERDAM

**DIGITAL PARKING**

Egis provides digital parking management software "Stadé". Stadé software includes several independent modules:

- Operation of parking meters
- Management of fines
- Creation and follow-up of electronic PV (TAé) : Solution for police forces and CEOs.
**SEGWAY WITH ANPR, AN INNOVATIVE, FLEXIBLE AND ECOLOGICAL SOLUTION**

- Economic and efficient solution
- Increased field coverage: a civil enforcement officer equipped with a Segway ANPR covers an area 6 to 8 times larger than a controller on-foot.

---

**AUTOMATIC NUMBER-PLATE RECOGNITION (ANPR)**

Positioned on a car or a scooter, the ANPR is the solution for efficient enforcement of street parking. The automatic number-plate recognition device photographs and records number plates and enforces real-time payments. It enables 3 modes of use:

- **Pre-enforcement:** The enforcement of road user payments through distribution of data to CEOs for PCNs.
- **Embedded enforcement:** Direct delivery of PCNs by CEOs, equipped with tablets, for ANPR controlled vehicles.
- **Remote enforcement:** Controllers in the control centers or offices emit fines after digital image review. Images are provided in real time by the ANPR vehicle.

22 ANPR SYSTEMS DEPLOYED IN EUROPE FOR THE CONTROL OF ON-STREET PARKING

1,450 LICENSE PLATES READ PER HOUR
MANAGEMENT
OF PARKING CLAIMS

Egis offers a solution to manage the parking claims of road users.

- Data entry of parking fines via internet
- Scan documents sent by post
- Validation of the admissibility of PCNs
- Completion of reporting required by law
- Monitoring changes to applicable parking legislation
- Follow-up of legal steps for on-street parking violations

140 000
CLAIMS IN 2018

Egis’ experience in parking has evolved to include the analysis of collected data and use of predictive algorithms.

- Parking Data Laboratory: Integration of new technologies in data processing and cartographic presentations to improve parking enforcement performance.
EGIS

OUR 14,850 PEOPLE ARE DEDICATED TO SUPPORTING ENERGY, ECOLOGY, DIGITAL AND TERRITORIAL TRANSITION TO SHAPE TOMORROW’S WORLD.

We draw on our capacity for innovation and our ability to ingeniously transform ideas into solutions that are tangible, operational and, most importantly, useful for our clients all over the world.

Our assignments lead us to operate in a wide range of domains addressing the major challenges of the planet, such as transport, buildings, water, the environment, energy, urban development and mobility services. To deliver them, we call upon a broad spectrum of disciplines, ranging from the design of infrastructure to its operation, also including consulting, turnkey delivery and project structuring.
